SOFTWARE ENGINEER

Web Application Development | Mean stack Development | Full stack Development

Technically sophisticated Software Engineer with over 2.4 years of experience in software design, development, and integration, incorporating a wide range of applications and technologies. Proven track record designing and developing high-end software/web applications consistent with unique client requirements, while introducing advanced methods to resolve complex problems and enhance user experience.

Accomplished communicator skilled in building and strengthening relationships across functions to drive cohesive, strategic operations.

- Project Planning & Management
- Software Engineering Processes
- Software Design & Development
- Test Plan Design & Execution
- Cross-functional Team Collaboration
- Software Development Lifecycle
- Agile & Scrum Methodology
- Requirement Gathering/Analysis
- Interpersonal Communication

TECHNICAL PROFICIENCIES

- Web Technology: CSS, HTML, Java Script, Angular 2 and 4
- Web Services: REST
- Databases: SQL Server, Mongo dB
- Application/Web Servers: Node Js, Java, Hyperledger (Blockchain Network)
- Version Controls: GIT
- IDE: Atom, Eclipse, Visual Studio Code
- Operating System: Windows 10/ Windows 8/Windows 7/ Vista / XP

WORK EXPERIENCE

Mphasis | Pune India

July 2018 – Dec 2018

Delv. Software Engineer

Play a key role as an active member of the SWBC Development Team. Gather requirements and conduct analysis based on documented requirements and discussions with business users for developing Application.

KEY PROJECTS:

- **SWBC,USA**
 - Contributed to the development of Application related to insurance offering an end-to-end system based on a MVC approach.
 - Worked on Angularjs, SQL.

XORiant | Pune India

Oct 2016 – Jul 2018

Software Engineer

Leveraged solid analytical skills in troubleshooting and resolving complex problems during the development, considering multiple business and technology factors. Worked closely with multidisciplinary teams to define, design and implement new features. Designed and developed robust front-end user interfaces in Angular 2-4, Html, CSS, JavaScript, MVC Framework. Expertly applied the Service, Controller, and Model.

- Generated popup forms using AngularJS Models and Controllers.
- Participated in daily Scrum meetings, Sprint planning, and estimation of tasks for user stories, as well as retrospective and presenting Demo at end of the sprint.

KEY PROJECTS:

- **Project 1: SAP (CTool), USA**
 - Development along with QA responsibilities with onsite & offshore co-coordinator to coordinate with team to meet the deadlines as per work plan.
 - Designed user interface for application using MVC, HTML, CSS, React JS. Implemented business logic using React JS.
 - Designed action and Reducers for APIs, including JSON data formats and API version strategy.
- **Project 2: CITI**
 - Designed user interface for application and charts using MVC, HTML, CSS, Angular2, D3 js.
 - Designed action and Reducers for APIs, including JSON data formats and API version strategy.
- **Project 3: CLS**
 - Developed a POC as a part of assignment during training with help of MEAN stack i.e.
 - Mongo DB, Express js, Angular 2, Node js.
 - Attended Blockchain and Hyperledger training.

EDUCATION

Master of Science in Computer Science – *University of Alabama, Birmingham | Jan 2019*

Bachelor of Engineering in Computer Science – *University of Pune | May 2016*
